

Rafael Asmoucha

I am looking for a full time opportunity in full-stack web development. I was recently released from the IDF as a lone soldier (חייל בודד) and looking for a role where I can contribute and grow.

WORK EXPERIENCE

Replit Ventures - 10 week incubator programme to bring start up ideas to market

2021 - 2021

Replit - Leading Collaborative Browser Based IDE

Amongst 6 applicants selected from 400+

The project: DogeMail - Python Flask/SMTP server + email web interface

Front-end development:

- Email site inbox page.
- Email components.

Back-end development:

- Collaborative work with Marcus Weinberger building a working Python SMTP server.

MILITARY EXPERIENCE

IDF -Tzanhanim- 890 Machlakat סופר (JTAC)

2021 - 2023

Lone Soldier in this new unit to increase collaboration between the Air Force, the Artillery Corps and infantry units.

Joint exercises with US Marines (JTAC)

WEB DEVELOPMENT PROJECTS

2020 - 2022

I expanded my interest in programming as a personal challenge to grow my skills.

Chess App - Online Multiplayer Website

Back-end development (Python) - building a server in python for a live multiplayer game.

Front-end development - building an engaging game page with HTML, CSS, and JS.

Little Man Computer - Instructional Emulator Of A Computer

JavaScript development:

- Web emulator of the Little Man Computer system (effectively building an assembly code interpreter in the browser).

HTML, CSS development:

- Visual representation of the computer system using data “blobs” to represent data transfers.
- Online assembly code IDE with syntax highlighting.
